

# N40i

## The NavPix™ Range

It's about attention to detail. From the latest GPS technology on the inside, to the smooth and functional exterior design, the N40i's build quality is second to none. A newly updated, 'user-friendly' software means the N40i is simple to use and gives you access to its impressive functions quickly and easily.

The N40i uses NavPix technology, the world's only car navigation system that lets you navigate to pictures. With its built-in camera, you can shoot and build your own 'destinations album' and navigate back to your favourite places simply by tapping the photo on the screen.

## Beautifully designed inside and out

### Key Features

- Slim, portable, high-quality design
- NavPix™
- Integrated NavPix™ camera
- Pre-installed safety camera data
