

S-SERIES

# S50<sup>3D</sup>

A new dimension in navigation.

The brand new S50 3D elevates navigation to a higher level. Using the latest map data, major landmarks are displayed in dramatic 3D graphics on its brilliant 4.3 inch widescreen display.

In addition, the intelligent new Local Search service connects the S50 3D to the Local Search network via Bluetooth, giving local information on interesting places to visit, shops and services, hotels and restaurants and much more, wherever you are. And Bluetooth® hands-free calling makes the S50 3D the smart choice for business as well as personal use.

Using the built-in NavPix™ technology, you can download and navigate to pictures and the intelligent Day/Night display makes the S50 3D even easier on the eyes. Pre-installed Safety Camera data makes driving safer and Route Traffic overview\*\* gives you an updated snapshot of your entire route, including any hold-ups on the road ahead.
