

S-SERIES SPIRIT

S300T

Design and performance go hand in hand.

Beneath the S300T's amazingly slim frame and super-flat widescreen is a suite of powerful features and the latest maps of 22 European countries.

It features Navman's new Infobel Local Search, so you're always connected to nearby restaurants, shops and local attractions, and the big screen makes perfect use of NavPix™, making it easy to navigate to pictures. The Capture button instantly stores details of anywhere interesting you discover. Traffic is built-in, and the text-to-speech, stunning 3D landmark images and motorway Junction Views make driving a pleasure, especially when directions are played through your car's speakers via the FM transmitter. The 2D city maps also turn the S300T into a handy navigator when exploring on foot.

S300T
